978839599

Diligent front-end and back-end developer with 1 year of hands on experience in development of cutting-edge, well engineered and commercial applications. Extensive expertise in development of Single Page Applications, Admin Panels, websites. Passionate about usability and possess working knowledge of JavaScript programming.

Professional Experience

Front End Developer

AlokaBank | December 2019 - April 2021

- **01/2020 - 03/2020.** Worked as an intern. Learnt the basics of JavaScript and ReactJs and started working with real projects.
- **03/2020 - 11/2020.** Worked as a junior. Solved more tasks regarding the forms, used ReduxForm, AndtForm and custom forms. Built filters to search and find data. Worked with forms which need to be integrated with the server for sending and receiving data.
- Worked with Tables such as AntdTable and used own custom tables in order to show data from the server with actions such as edit, delete and others. Also worked with paginations when it comes to a huge amount of data.
- Worked on Admin Panel for the Mobile App called Zoomrad (like PayMe). Project is written in Vuels and it is used by Supports and Moderators in order to help to clients with certain issues while using App.
- **11/2020 - 03/2020.** Last 5 months I worked as a starter middle developer. I started solving tasks by my own and making a decision how to solve and what to use in a certain tasks.
- Built a form in one of the project and integrated with the server. In this form I wrote a functionality which depends on selected currency will automatically calculate the percentage of entered amount of money. Moreover I added some dynamic fields so that users could add or delete if needed.
- Created a web application called "AloqaExpress" for an internal transfers among the branches of Bank, using React & Redux and AntDesign for the BackEnd Nodejs, Express, MySQL and Sequelize ORM.

Software Engineer

EPAM SYSTEMS | May 2021 - Present
